VARIANCE APPLICATION

This application must be completed and submitted to the Planning Department no later than the dates listed on the Zoning Board of Adjustment (ZBA) schedule sheet. The ZBA will not consider incomplete or inaccurate applications for action. ~ PLEASE PRINT OR TYPE ~

1. VARIANCE INFORMATION

- a. ADDRESS OF REQUEST 257 Pine Street
 Zoning District RB Sheet 101 Lot 26-27-29
- b. VARIANCE(S) REQUESTED
Applicant seeks two (2) variances for the purpose of attaining two (2) buildable single family lots that meet or exceed all other requirements excepting the minimum width requirement at the prescribed setback. Each lot will exceed minimal square footage requirement and meet required frontage of fifty (50') feet, and will meet and exceed the required sixty (60') foot minimum width at some point on the propose lots.

2. GENERAL INFORMATION

- a. APPLICANT / OPTIONEE (List both individual name and corporate name if applicable)
George Hurd - G. Hurd & Son Construction, LLC
 Applicant's signature [Signature] Date 2-4-16
 Applicant's address 13 Merrimack Street, ~~Nashua~~ Hudson, NH 03064
 Telephone number (home) (603) 718-2932 (work) (603) 718-2932
- b. PROPERTY OWNER G. Hurd & Son Construction, LLC
 Owner's signature [Signature] Date 2-4-16
 Owner's address 13 Merrimack Street, ~~Nashua~~ Hudson, NH 03064
 Telephone number (home) (603) 718-2932 (work) (603) 718-2932

3. PURPOSE OF REQUEST

Answer all questions below. Provide as much information as available to give the ZBA the necessary facts to review your case. Attached additional sheets if necessary. See "Procedures for Filing a Variance" for further information.

1. **Granting of the requested variance will not be contrary to the public interest**, because: (The proposed use must not conflict with the explicit or implicit purpose of the ordinance and that it must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

The requested variances seeking relief from the sixty (60') foot minimum width requirement at the prescribed setback would not alter the essential character of the neighborhood, as the proposed two single family lots created would meet or exceed all other requirements and establish two lots, each in excess of the required square footage. The proposed variances would in no way adversely affect public safety, welfare or injure any public rights. The allowance of the requested variances would serve the intended purpose of the ordinance by way of creating two single family lots that are consistent with and would benefit the residential make up of the area.

2. **The proposed use will observe the spirit of the ordinance**, because: (The Proposed use must not conflict with the explicit or implicit purpose of the ordinance and must not alter the essential character of the neighborhood, threaten public health, safety, or welfare, or otherwise injure "public rights.")

The proposed use of the property in establishing two single family lots that meet or exceed all other requirements, excepting the minimum width at the prescribed setback, would not alter the character of the neighborhood, and would in fact mirror the nature and type of residential family lots that do now and have historically existed in the area. Two single family lots each exceeding the required square footage would have no adverse impact or pose any threat to the public safety, welfare or public rights.

3. **Substantial justice would be done to the property-owner by granting the variance**, because: (The benefits to the applicant must not be outweighed by harm to the general public or to other individuals.)

The granting of the requested variance, allowing relief from the required sixty (60') foot minimum width at the prescribed setback, would provide substantial justice because no harm to the general public would be created in so doing. The allowance of the variances would facilitate the creation of two single family lots that would actually enhance the general public and neighborhood as a whole. The property owner would benefit from the substantial justice afforded by creating two single family lots on parcels totaling 18,550 sq. ft., consistent with or exceeding the present profile of the neighborhood.

4. **The proposed use will not diminish the values of surrounding properties**, because: (The Board will consider expert testimony but also may consider other evidence of the effect on property values, including personal knowledge of the members themselves.)

The allowance of the proposed variances relieving the applicant from the requirement of the minimum sixty (60') foot width requirement at the prescribed setback, thereby facilitating the creation of two single family lots that each meet or exceed all other requirements would likely preserve or enhance the value of surrounding properties. The construction of two single family homes in an established RB neighborhood would bring added value to the real estate that is the subject of this request and positively reflect on the surrounding residences.

5. **Special conditions exist such that literal enforcement of the ordinance results in unnecessary hardship**, because: (The applicant must establish that because, because of the special conditions of the property in question, the restriction applied to the property by the

ordinance does not serve the purpose of the restriction in a "fair and reasonable" way. Also, you must establish that the special conditions of the property cause the proposed use to be reasonable. The use must not alter the essential character of the neighborhood. Alternatively, you can establish that, because of the special conditions of the property, there is no reasonable use that can be made of the property that would be permitted under the ordinance. If there is any reasonable use (including an existing use) that is permitted under the ordinance, this alternative is not available.

The literal enforcement of the ordinance, requiring a minimum width of 60 feet at the prescribed set back would be unfair, unreasonable, and impose a restriction unintended by the spirit of the ordinance. The property which consists of 18,550 sq. ft., would meet all other requirements of the ordinance, allow for the creation of two single family lots consistent with the existing neighborhood conditions, and allow for the most reasonable use of the property that reflects the character of the neighborhood and benefits the general public. The configuration of the three lots that comprise the property necessitate the proposed use.

4. USE VARIANCE ADDITIONAL INFORMATION

Please answer all questions below that are applicable. Your answers to these questions will allow staff to better understand your request.

- a. Total number of employees _____ Number of employees per shift _____
- b. Hours and days of operation _____
- c. Number of daily and weekly visits to the premises by customers, clients, vendors and solicitors _____
- d. Number of daily and weekly commercial deliveries to the premises _____
- e. Number of parking spaces available _____
- f. Describe your general business operations _____

- g. Describe any proposed site renovations, including, but not limited to – landscaping, lighting, pavement, structural changes, signage, access and circulation _____

I hereby acknowledge that I have read this application and state that the above is correct and agree to comply with all the city ordinances and state laws regulating construction.

I understand that only those point specifically mentioned are affected by action taken on this appeal.
