5. Other business

Discussion ensued on whether a registered voters moving within the city needed to prove citizenship when registering to vote at a new polling location. S. Waye explained registered voters whose address moves them to a different polling location are treated as new voter registrations. All documentation, including citizenship, must be presented and entered into the State system.

Discussion then turned to the recent change in the Nashua Board of Education Policy KIB, which added an annual invitation for the City Clerk's Office to register students at the two high schools. At the Board of Education meeting, G. Mikailov addressed the Board and described how the events were conducted. In speaking with Ms. Kinsella, from the Superintendent's Office, she learned that the School Activity Coordinators would probably coordinate the event. She also heard from the high school social studies teachers, who had handled these events in the past. They expressed an interest in keeping the event under the Social Studies Department and including it as part of the Rho Kappa National Social Studies Honor Society. All Board of Registrars agreed it should continue under the Social Studies Department. G. Mikailov to request it remain under the Social Studies Departments.

Discussed ensued regarding training for the upcoming Presidential Primary. S. Waye requested that part of the City Clerk's training include a reminder that deputy voter registrars are to remain Apolitical in assisting citizens to register to vote and refrain from engaging in politics with other workers and/or voters. S. Lovering informed the Board that she had received a similar request from a longstanding deputy voter registrar and would include a slide in her training materials.

6. There being no further business before the Board, S. Waye motioned to adjourn. Seconded by A. Lopera. Motion passed. Adjourned at 5:15 p.m.
