

REPORT OF THE FINANCE COMMITTEE

AUGUST 14, 2019

A meeting of the Finance Committee was held on Wednesday, August 14, 2019, at 7:00 p.m. in the Aldermanic Chamber.

Mayor Jim Donchess, Chairman, presided.

Members of the Committee present: Alderman Michael B. O'Brien, Vice Chair
Alderman-at-Large Brandon Michael Laws
Alderman June M. Caron
Alderman-at-Large Shoshanna Kelly
Alderman Patricia Klee

Members not in Attendance: Alderman Linda Harriott-Gathright

Also in Attendance: Kim Kleiner, Director, Administrative Services
David G. Fredette, Treasurer/Tax Collector
Dan Kookan, Purchasing Manager

PUBLIC COMMENT - None

COMMUNICATIONS

Re: Contract Renewal with the Humane Society of Greater Nashua for FY20

**MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND APPROVE THE CONTRACT
RENEWAL WITH THE HUMANE SOCIETY OF GREATER NASHUA IN THE AMOUNT OF \$99,081. FUNDS
ARE AVAILABLE IN DEPARTMENT 109, CIVIC & COMMUNITY SERVICES; GENERAL OPERATING
FUND**

ON THE QUESTION

Alderman O'Brien

There seems to have been some past questions with this. This is the one with the gentleman that had the cats and everything. So with Mr. Kookan or yourself, can you just give us a brief update on that and where we sit right not with that?

Alderwoman Kelly

So I think there were two pieces to that and Alderman Klee can – there was a piece of legislation that will be coming up that also did the contract. And for me the contract didn't include chickens so that had been updated. But the other piece that you are talking about is a piece of legislation that will be coming up, right? Yeah.

Mayor Donchess

So the contract does suggest that we, under certain circumstances, it is possible that the City would pick up cats. It is not the City's practice to do so but the Health Department, Director Bagley is here, I believe thinks that there are certain circumstances under which, for reasons of health. For example if the cat has got rabies or something like that, we would need to pick the cat up. And of course, Dr. Stephanie Wolf-Rosenbloom spoke to that at the last meeting. So of course it the pleasure of the Committee but the only possible discussion point is are cats removed from the contract? But otherwise it is the same contract that we've had with the Humane Society for years.

Alderwoman Klee

As far as the change to the Ordinance, basically what we did was we just clarified the statement that it did say that we would basically impound dogs, cats, ferrets and chickens. But the underlying paragraph didn't specifically outline that we would do it for whatever the reasons were. So we introduced that, I believe yesterday, and it will be going on to the appropriate Committee for approval. I don't think it should hold this up because there was really nothing wrong with our Ordinance. I just asked for it to be clarified to make sure, in fact, that we would do that. The biggest hang-up on the contract did not have anything to do with the cats it was really about the chickens.

Alderman O'Brien

Yes thank you and I am satisfied and thank you for your explanation. I know this has been somewhat newsworthy of late and having recently had to put down the family pet, our dog and everything, you know? I think I look back at it as one of the most kindness things that I could for that animal. He was hurt and wasn't the same fellow that was with us. He will always be with us in our minds and hearts but sometimes when you deal with animals they do get sometimes a little bit much. So we need this contract and I support it. Because at times, I am not going to necessarily going to say a nuisance, but at times they get into some things. The public does need to have a venue that is available to remove them if that is the case. So I am supportive. But thank you for your explanation.

Alderman Klee

I just want to add one thing and again I don't believe it has anything to do with this contract, but that particular ordinance, the things that we did add were the specific wording of "nuisance stray" or that it was deemed or felt that this animal was harmed in any way. And just to clarify something else, I did have someone who said to me, "why don't we just put animals rather than specific type things". And the reason for it, if we put something like nuisance or stray, if someone called and said, "I've got a squirrel that's a real nuisance and feeding at my roof and so on" we would have to go and pick up every squirrel in Nashua and we really don't want to do. So we do want to be as specific as possible. That doesn't mean that if someone put an alligator into our sewer system we aren't going to go pick it up because it's not in the Ordinance; we would, in fact, go and do that. We would probably call the State to come and take care of that one or a bear or something. But anyways so I just wanted to clarify that while we are talking about it.

MOTION CARRIED

From: Dan Kooken, Purchasing Manager
Re: Purchase of NPD Storage Server (Value: \$39,732)

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO AXIS BUSINESS SOLUTIONS IN THE AMOUNT OF \$39,732. SOURCE OF FUNDING IS DEPARTMENT 150, POLICE DEPARTMENT; GENERAL OPERATING FUND

ON THE QUESTION

Mayor Donchess

I think there is someone here from the PD if we have any questions. Why don't you come on up. You can sit down if you want. We may not really have questions but make yourself comfortable. Would you please introduce yourself.

Peter Cinfo, IT Manager Police Department

My name is Peter Cinfo I am the IT Manager over at the Police Department.

Mayor Donchess

Does anybody have any questions or comments about this item.

Alderman Laws

Thank you. Just a curiosity I was looking at the bids. They vary widely.

Mr. Cinfo

They do; the largest numbered one is straight from the manufacturer, HP. So they offer, that's like basically retail, they offer better prices obviously to vendors and that's where those prices get.

MOTION CARRIED

From: Dan Kooken, Purchasing Manager
Re: Contract for Engineering Services for Heritage Rail Trail East

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO CMA ENGINEERS, INC., IN THE AMOUNT OF \$166,398. FUNDS ARE AVAILABLE IN DEPARTMENT 181, COMMUNITY DEVELOPMENT; NH DOT HERITAGE RAIL TRAIL EAST GRANT

ON THE QUESTION

Mayor Donchess

I believe Ms. Chisholm is here if we do have questions.

Deb Chisolm, Waterways Manager

I'm not sure I can answer them.

Mayor Donchess

I can probably answer the question, but you are here on various items, right? Well this is for the engineering of the Rail Trail east. We are going to come up with a different name but this goes from City Hall to Henry

Hanger. We have about a million dollar grant including, plus the City match to pay for this. This would of course do the engineering, it is about 6/10ths of a mile long. Discussion, questions?

MOTION CARRIED

From: Dan Kooken, Purchasing Manager
Re: Hydroelectric Bond Fund

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO NORMANDEAU ASSOCIATES IN AN AMOUNT NOT-TO-EXCEED \$361,230. SOURCE OF FUNDING IS DEPARTMENT 181, COMMUNITY DEVELOPMENT; BOND FUNDS

ON THE QUESTION

Mayor Donchess

Now I think Ms. Chisolm is here on this right? Why don't you come on up. Could you give us an explanation of the project and what the project is?

Ms. Chisolm

Sure the overall project is the re-licensing of the Mine Falls Hydro Electric Facility. We've only got a couple years left on the current license and we are hoping to be re-licensed for a 4 year term. As part of that, we had put out pre-application document that essentially explained the history of the facility and the dam and how things were operating. That allowed pretty much anyone in the public arena, but also and primarily State and Federal Agencies to comment on our application. As part of that, there are several agencies who typically work together in a group that had suggested various studies that we perform as part of our relicensing project. So we went through the purchasing process to hire a contractor to help us with that because the studies, there were about 8 of them, and they are quite extensive and certainly are better off done by a contractor. So we went through the hiring process with the purchasing process and interviewed, we got 3 submittals on our request for qualifications and we interviewed all 3 of those groups and Normandeau came out as our preferred vendor. So as part of our process, we wanted to make sure that we were getting a qualified vendor and selecting them on their qualifications and not on their pricing.

So the way we had set it up was that once we got the contractor that we preferred based on their submittals, we then asked them to pull together a scope of work based on our pre-application document and their knowledge on how this re-licensing process actually works. So they put together a scope, and they gave us the cost. If you had looked at the cost, what they had provided us was a range and that is essentially based on what we are hoping will be some bit of negotiations with the agencies that they had pulled together all of these studies. And some of them are appropriate for our facility and some of them are not and some of them can be modified which is also one of the reasons why we had selected Normandeau. We thought that they would be a really good fit to work with us and the agencies to make sure that we were all the table and coming to some conclusions on how these studies were going to be borne out. So what they had provided us was essentially what they considered to be a minimum and a maximum estimate on the costing. So the contract that is before you is an amount not to exceed, we had selected the max in case the agencies didn't seem all that great with negotiating any parts of the studies that were suggested.

Alderman Klee

When I was looking at the implementation of the study plan it talks about, that's why I had to go look for it, a full study, a reduced study or a minimum study. Is that based on these conversations that you had with these different groups as to which study we would go to or would we know before we went in, starting to talk to people and what are the differences.

Ms. Chisolm

Well Normandeau has done all of these studies for various clients so they know what the very strict requirements are. The amount really won't be known until after we can sit down with Normandeau and the agencies, Fish & Wildlife, NH DES, until we sit down with them and actually have discussions about "Do we absolutely have to do this" and if they say "yes" well that's the max value. And if they say "no there's some wiggle room here" we have the ability to do this or this; that's why they had provided us, like I said, with that range for a couple of the studies.

Alderman Klee

OK thank you.

MOTION CARRIED

From: Dan Kookan, Purchasing Manager
Re: DPW Facility – Construction Manager

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO HARVEY CONSTRUCTION CORPORATION IN THE AMOUNT OF \$25,000. FUNDS ARE AVAILABLE IN DEPARTMENT 161 STREETS; CAPITAL; INFRASTRUCTURE IMPROVEMENTS

ON THE QUESTION

Mayor Donchess

This is to retain Harvey to evaluate how to improve the rather decrepit Public Works facilities that we have. Whether it makes more sense to consolidate in one location or if it makes sense to expand in place or improve the various facilities that are spread all over the City. This wouldn't need to be paid until we proceed with the project or at least the first phase of it and the cost is \$25,000.00

Alderman Klee

I am all for this. I think this is something that we've needed for a while and the conditions that some of our employees have to work in; I think the sooner we get this done the better. And the sooner that we get to look at these places and make a decision as to what is going to happen, whether it is moving, whether it is consolidating, whether it is fixing the areas. That is what this report will tell us, right? Which is the best model to move on?

Mayor Donchess

Correct.

Alderman Klee

I am definitely all for this and the sooner the better.

Re: The Sanborn Mapping Co. Change Order 1 – Orthoimagery and Photogrammetric Mapping
Project – Phase 2

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND, CONTINGENT UPON BOARD OF ALDERMEN APPROVAL, APPROVE CHANGE ORDER #1 TO THE CONTRACT WITH THE SANBORN MAPPING CO., IN THE AMOUNT OF \$135,551. SOURCE OF FUNDING IS DEPARTMENT 134 GIS; (\$41,951); DEPARTMENT 168, SOLID WASTE (\$15,600); AND, DEPARTMENT 169 WASTEWATER (\$78,000)

ON THE QUESTION

Peter Kohalmi, Deputy City Engineer

Good Evening my name is Pete Kohalmi, I am the Deputy City Engineer. This project is an update to our geographic information system. GIS is essentially, it's like a Smart Map, it's a digital map. It's not like looking a paper map. It is a map on a computer that is interactive. You can touch and pick features. You can click on a pipe or a catch basin and it'll bring up information about it. It hasn't been updated in 20 years. We do do a flyover every couple of years. We have a pilot who specializes in mapping and they will fly over and we get digital pictures to update the pictures. But the actual information in the GIS System hasn't been updated in 20 years. So there are structures missing, there are pieces of infrastructure that are not shown or pieces of infrastructure that shown and not there anymore. Things like tree lines, catch basins, even new streets; they may not be shown on our GIS System and it is an extremely powerful tool. GIS is used by every Department in the City. So we are looking to finally update our GIS System after 20 years.

Alderman O'Brien

Just a comment, coming from the Fire Department roots, we have used that and particularly in the example of an auto or severe accident with fluid spills that can get into the water supply. The particular mapping that you are looking at, you know, is that connected or not. Gone is sometimes it is a little decal over that storm drain that tells you it goes to a freshwater supply so it's good to have the GIS capability that's in some of the apparatus right now; so fantastic yes.

Re: Landfill Engineering Services

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO SANBORN HEAD AND ASSOCIATES IN THE AMOUNT OF \$270,000. SOURCE OF FUNDING IS DEPARTMENT 168, SOLID WASTE

ON THE QUESTION

Jeffrey LaFleur, Superintendent of Solid Waste

Good Evening, Superintendent Jeff LaFleur, Solid Waste Department.

Mayor Donchess

Since this involves the landfill why don't you give us the explanation?

Mr. LaFleur

Absolutely; this is our engineering firm that does all of our landfill, extra engineering. I have a landfill engineer that helps me with permits. These guys actually deal with DES and they take care of all of my ground water permits, my landfill gas designs and everything. They have been great. They take care of all of our air permits, greenhouse gas emission report. We went up a little bit this year to \$90,000.00 from the \$80,000.00. We are finding that DES is implementing more and more stringent requirements on us and that could require us doing some more reporting. Just to make this clear, this is a 3 year contract.

Re: Purchase of One (1) Caterpillar 938M Wheel Loader

MOTION BY ALDERWOMAN KELLY TO ACCEPT, PLACE ON FILE AND AWARD THE CONTRACT TO MILTON CAT IN THE AMOUNT OF \$252,400. SOURCE OF FUNDING IS DEPARTMENT 161, STREETS; CERF

ON THE QUESTION

Mayor Donchess

Since this is a bigger item maybe you should give us a little explanation on this, it is pretty self-explanatory.

Jonathan Ibarra, Superintendent of Streets

Yes it is self-explanatory, it is to replace a loader that we have right now, 2008 that has upwards of 8,000 hours on it. It is showing some signs of wear and tear. We have some electrical issues going on and we also need to get a scale system. So rather than buy a separate scale system, this loader will also have a scale system so we can measure our loads, especially with loading salt. We will know how much salt we are putting in the truck so as not to overload and just how much salt we are going through every storm; we will be able to track it better.

Alderman Caron

Thank you Mayor. So we have a lot of purchases for vehicles, how are we doing after this in terms of replacement?

Mr. Ibarra

Truck we are pretty well caught up on, the equipment, it's the small stuff, sidewalk tractors are coming up.

Alderman Caron

So we are really kind of catching up in doing this, OK thank you.

Alderman Klee

I am going to ask a question that Alderman Laws has asked in the past just because I want clarifications of it and for those that are listening. The trucks that we kind of put to the boneyard sort to speak, I know they don't just go to a junkyard and a boneyard, do we get any money for them?

Mr. Ibarra

We don't trade them, we don't get a lot of money when they get to that point, but we talk with Dan and we put it on the public auction web site.

Alderman Klee

And then whatever we get from the auction.

Mr. Ibarra

It's usually....

Alderman Klee

Minimum?

Mr. Ibarra

No it's usually quite a bit more than the dealers would give us on a trade.

Alderman Klee

Good, glad to hear that, thank you.

Alderman Laws

Thank you. One of the things that I enjoy about this very brief Finance Agenda is that there were several items, instead of saying that you were going to put them immediately up for auction, you are going to continue using them?

Mr. Ibarra

Yes we use them until something big happens and people are willing to spend crazy money.

APPROVING AN AMENDMENT TO THE LEASE WITH NASHUA ICE CENTER (KNOWN AS CONWAY ARENA)

MOTION BY ALDERWOMAN KELLY TO RECOMMEND FINAL PASSAGE

ON THE QUESTION

Mayor Donchess

This is the, Ms. Chisholm is here on this as well I think but this is the item that we discussed on the 6th when we had the solar presentation. Conway, assuming approval by the Fire Commission, which we are optimistic we will receive. Conway, the Fire Department and the bus garage or the 3 buildings, at least the 3 buildings that we would solarize under this contract, Conway being the largest of those. We get the benefits of the scale of 3 buildings.

They thought because they have only got 17 years left on their lease, they would like an extension so that they will be able to have confidence that they will have possession of the building for a sufficient time to realize the full benefit of the solar. And in case they want to buy the equipment, which is an option after 5 years, that they could successfully obtain financing to do so. That's what this Resolution would do, it extends the lease. Any questions or comments?

Alderman Caron

Thank you. Mayor as you know I was part of this process when Conway came to the City to develop the Ice Arena and they have been real good stewards to the community. One of the things that we had talked about back then is the ability for them to provide grant money to non-profits throughout the City, most which go to Youth Service Programs. They have stood by all the things that they said that they would do. That means working with the schools, working with our youth, hockey programs, and working with the City to do their due diligence. So I think to extend this lease should not be a very difficult decision to make. And if it helps us with our solar power and helps them as well, then that is more money that they will do for their maintenance and go give out grants. And as Charlie Hall said since they started, they have given over \$700,000.00 to our programs. And yay for the Fright Night.

Alderman O'Brien

Yes and I echo exactly Alderman Caron's, I am a little tainted with this, my son is involved with hockey at the Conway and I will tell you it's a wonderful program, wonderful facility. I've been to Tyngsboro, in my time, and played in many others and Conway is a very nice place. So I think it is outstanding. Plus I just want to make a public service announcement, people seem to forget but during public skating it is an excellent way in the summer time. It's the ultimate cool off, if you go strap on your skates and go for a couple turns around the rink which would be good. But yes I definitely do support this and it will give them a long-term effect to get the benefits of the solar which is another benefit to us. So very good.

MOTION CARRIED

R-19-172

**AUTHORIZING THE MAYOR TO ENTER INTO A POWER PURCHASE AGREEMENT (PPA)
AND LEASE WITH REVISION ENERGY**

MOTION BY ALDERWOMAN KELLY TO RECOMMEND FINAL PASSAGE

ON THE QUESTION

Mayor Donchess

And Ms. Chisholm can explain again, she did explain this on the 6h.

Ms. Chisholm

I did explain briefly but you had already provided an extensive summary so essentially what the Mayor said. We are looking to put solar on two of our municipal buildings and we are working with ReVision Energy. We went through the purchasing process looking for the right solar vendor and as it turns out ReVision Energy was and is, has been a great match for us. They've been very patient and they have been excellent at looking at alternatives. We had originally contemplated putting solar on the street department's garage but as you can see from tonight's earlier approval of the contract, they are looking to do something to the street's department garage which really sort of puts off the opportunity of using that for solar.

So as the Mayor had mentioned, the efficiencies of having a big building, a large roof, really came to us, I don't know it just sort of appeared, like "Why don't we use Conway". I mean here we are standing, looking at the street's department garage and gong "Oh wait look at this".

So it really – ReVision has been great with working with us to maintain what they had originally offered us which was an excellent electricity rate of 8.8 cents per kilowatt hour. So they again, ReVision Energy has done a great job of actually going through – part of the process is to, you can't just put solar on any roof and so they have gone through and done extensive evaluations of both the transit garage and the fire station on Lake Street. They've looked at a couple of other roof tops but at this point what we are really trying to and why I am here tonight for Finance after just getting a first reading last night, is there are some tax credits that will become, that will go away, that will be reduced actually at the end of December. So we are trying to move this through and ReVision is very hot to get solar on rooftops for municipal buildings in Nashua, to add that to their, of course, cadre of other stuff that they do. And we are very excited about it as well, for the first time to have solar on municipal buildings. So if there are questions about details, I can try to answer them. Dan Weeks is typically the go-to person for details but I've heard it a few times so I might be able to help.

Alderman Kelly

I just have a comment; Kudos first of all to ReVision, I think they did an incredible job with the details when the presented to us, was it last week. You can tell that they are very passionate about it and know so much so I think we are in good hands there. I also just, my own personal excitement for this, being on the Energy & Environment Committee we really are pushing for us to be less reliant on things that are not renewable. And so this is one big step. When I sat down with Alderman McCarthy he asked me "what do you want to do" and I said, "I want solar in the City" and that was the very first thing I said to him so he would be proud and I am pretty proud.

Alderman Klee

I was not here for that meeting I was sick, but I was watching it, I watched it live. The excitement from Mr. Weeks and his partner was, well he was quite excited about it. I agree with you, he gave quite a bit of detail. I think the citizens that were watching it, much like I did, learned a lot. And it was quite interesting to learn about the purchasing it later on and so on. And having them do this roof with Conway shows a real private/public, we needed the space, they needed it and we worked in cooperation. I think the fact that ReVision has gone through so much to help and to make that happen. I think this is a great contract. Thank you.

MOTION CARRIED

RECORD OF EXPENDITURES

MOTION BY ALDERMAN KELLY THAT THE FINANCE COMMITTEE HAS COMPLIED WITH THE CITY CHARTER AND ORDINANCES PERTAINING TO THE RECORD OF EXPENDITURES FOR THE PERIOD FROM JULY 1, 2019 TO JULY 11, 2019, AND FROM JULY 12, 2019 TO AUGUST 1, 2019
MOTION CARRIED

GENERAL DISCUSSION

Alderman Laws

I was just going to say, it is another public service, I'm not sure how many people who are watching this at home like go on the GIS application on the City Web Site. It's a good way to kill a few hours of your life. You will be very impressed at all the things you can learn about the City, your neighbors.
