ANALYSIS

This legislation increases the monthly parking rates for leased spaces in the City's parking garages and lots starting January 1, 2020. The Parking Office indicates that the goals of this legislation are to institute one universal rate for all leased levels of the parking garages and bring the City's leased parking space rates in line with neighboring municipalities' rates. Parking has also provided the following additional information: parking customers can purchase parking for multiple days at the pay stations at the hourly metered rate; and the City has not had any lease holders aged 62 and greater for several years.
