**ANALYSIS**

This legislation increases the optional service-connected total disability tax credit from \$1,400 per year to \$2,000 (the maximum allowed) per year. This will result in a loss of some amount of property tax revenue, which the assessing department may be able to calculate.

(The city previously adopted the increased optional service-connected total disability tax credit through resolution R-96-101, "Providing for the adoption of the optional disability veterans' tax credit for service-connected total disability", which passed on March 11, 1997.)
