Underground Propane Tank Installations

Complete plan submittals are required for review/approval; all others will be returned
Each box must be checked off for acknowledgment

When completing an application for storage or installation of hazmat materials (UST / AST), please make sure the following information is included with the application.

- Number and size of tank (s). _____
- Provide a sketch showing location from property lines and the building(s).
- Indicate depth of hole for tank placement and what material the tank is being covered with. _____
- If less than 1,100 gallons for a specific location – list all tanks on one permit. If more than 1,100 gallons – a state permit is required.
- You must call the Nashua Fire Marshal's Office at 603-589-3460 requesting inspection of the tank once it is placed into the hole.
- Same day inspections are not possible. We advise you to allow scheduling an appointment time for your inspection.
- Clean fill on site is required.

**DO NOT BACK FILL AN UNDERGROUND PROPANE
GAS TANK OR ASSOCIATED GAS TUBING BEFORE AN INSPECTION HAS
OCCURRED BY THE NASHUA
FIRE MARSHAL'S OFFICE**

When burying a tank before an inspection is completed, the Nashua Fire Marshal's Office will require the tank to be removed, inspected and re-installed.
